"Our Business is Growing"

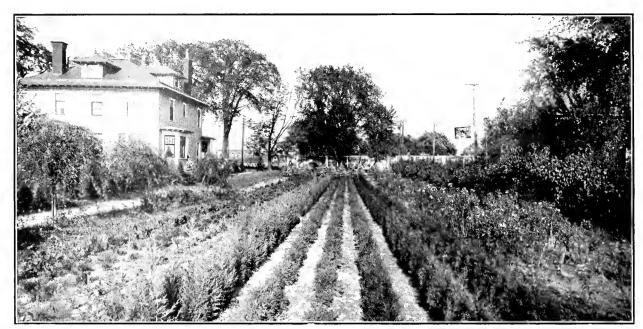

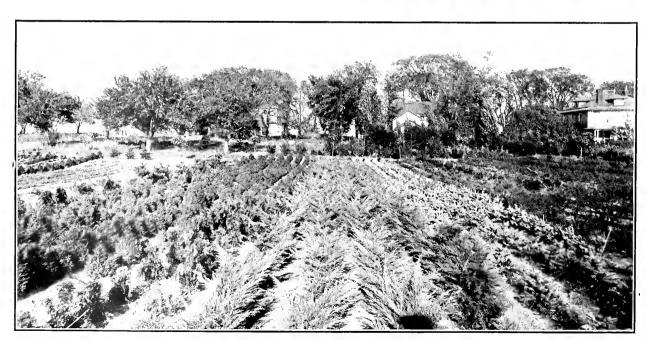

EVIDENCE OF OUR GROWTH DURING THIRTY YEARS "Our business is growing"

Partial View of Our Nursery Where Our Stock is Tested and Grown

# Plants, Bulbs and Nursery Stock

A Block of Evergreens in our Nursery

## CUT FLOWER DEPARTMENT

Our facilities for furnishing fresh Cut Flowers, Floral Emblems, Bridal Bouquets and Floral Decorations, are unexcelled. Our extensive greenhouses and nursery enable us to grow novelties and add variety to our stock. We keep in touch with all the newest varieties of flowers and plants, also the most up-to-date arrangements.

Patrons wishing to express their thoughts in flowers, or rather

## "Say it with Flowers"

can safely leave the selection to us, as we guarantee the best choice for each particular occasion.

We are members of the Florists' Telegraph Delivery Association and can guarantee delivery of Cut Flowers and Floral Emblems in all parts of the United States and Canada on short notice.

We grow our own flowers in large quantities, cutting them fresh every day and do not under any circumstance handle artificial or poor grade flowers.

Our greenhouses and nursery are within  $2\frac{1}{2}$  miles of our store and always open for your inspection. Call on us any week day; we will give you all the service in our power.

Part View of Store at 40 and 42 Maiden Lane

Evergreens add the needed touch with their refining and softening influence Charming effects are obtained in Winter and Summer

## Ornamental Coniferous Evergreens

We gladly furnish all information as to how to plant and care for Evergreens, Shrubs, Trees and Perennials. Always protect roots with damp material on arrival, to keep the *wind* and *sun* from reaching same. Be careful in watering, as many a plant is killed by giving too much water, especially perennials. During a dry period, give Evergreens, Shrubs and Trees a thorough soaking once a week, after planting, for four or five weeks in succession. Let nature do the rest, but do as much cultivating as possible, especially the day after rain or the watering. Do not water perennials as long as your soil is moist. For winter protection, especially newly planted evergreens and perennials, it is advisable to use straw manure or salt hay as a ground covering after the ground freezes, the idea being to prevent frequent thawing and freezing.

In comparing prices on Evergreens, the height alone cannot definitely establish their values. Example: Two plants of the same variety may be exactly the same in height, but in width and compactness one may greatly exceed the other, and in consequence have a greater value.

#### ABIES. Fir.

Pyramidal trees of extreme hardiness, often attaining great height, thriving in almost any exposed situation. They are justly ranked among the most ornamental subjects available for the embellishment of landscape or lawn. The leaves are usually deep green, lustrous above, and silvery white beneath.

brachyphylla Nikko Fir. A native of Japan, with quick, rather open growth and dark green needles. We especially recommend it as one of the best Firs.

	Each		Each
3 ft	\$5.00	5 ft	\$10.00

umbilicata. Very effective Fir, very hardy, tall and slender, with glossy, medium size, dark green foliage; silvery beneath.

Specimen trees only, 6 ft. up....Stock limited

A planting of Evergreens and Shrubbery will enhance the appearance of your property and increase its value

A Well Kept Foundation Planting of Evergreens

#### JUNIPERUS. Juniper.

The Junipers form one of the most important groups of evergreens for garden and lawn planting. The arborescent forms make beautiful specimens, while the prostrate varieties are widely used as a ground cover. They embrace species of great hardiness and their pyramidal and columnar forms are very effective in formal gardening, giving an architectural emphasis that is often so very desirable. In our cold climate, these are about the only plants giving this "spiky" effect so much admired in Italian landscapes.

chinensis (Chinese Juniper). A very hardy and ornamental tree of pyramidal outline, with a pleasing grayish-green foliage, and indifferent to extremes of temperature and diversity of soil.

Each			Each
2 to $2\frac{1}{2}$ ft\$3.00	-	$2\frac{1}{2}$ to 3 ft	\$5.00

**chinensis, var. columnaris** (New). The best upright Juniper: very hardy. Foliage bluish-green, a good bright color during Winter.

#### FOR WINTER DECORATIONS

After Summer flowering plants have been killed by frost, fill your window boxes, tubs and jars with our Evergreens, grown especially for that purpose. Nursery-grown Evergreens with good roots keep their color throughout the Winter. **Norway Spruce**, for tubs, jars and window boxes. 75c. and up

Junipers, for tubs, jars and window boxes......75c. and up And a large assortment of other suitable evergreens for tubs and jars.

Balsam boughs and Winterberries.

See pages 7, 9 and 11

#### PICEA. Spruce.

Spaces are unsurpassed for their ornamental qualities. They are conical or pyramidal evergreens, of great hardiness and usefulness. Splendid for park planting or as lawn specimens, and when placed among other evergreen planting, form a most pleasing contrast. The loftiness and stately spire-like crowns of the Spruces lend a peculiar charm to the landscape. The dwarf forms are valuable subjects for bordering the taller evergreens.

albertiana conica glauca. This interesting and dwarf Spruce was found in 1904 near Banff, Canada, by Professor Jack of the Arnold Arboretum; it is conical and very dense in habit.

Each		Each
1 ft\$4.00	$1\frac{1}{2}$ ft	\$6.00

Engelmanni (Engelmann's Spruce). A choice and valuable Rocky Mountain tree, of dense, pyramidal growth. The young branches are pubescent and clothed with bluishgreen foliage, which emits a strong, aromatic odor if bruised. Cones light brown, 2 to 3 in. long. This variety is native to the Rocky Mountains from Alberta and British Columbia to Colorado and New Mexico. Hardy in almost all parts of the country

Each	Each
1½ to 2 ft\$3.00	3 to 4 ft\$7.50
2 to 3 ft 5.00	4 to $4\frac{1}{2}$ ft

excelsa (Norway Spruce) A tall and picturesque tree of many variations and the most widely cultivated of all the Spruces. As an individual tree, with room to develop, is of pyramidal, symmetrical growth, its lower branches sweeping the ground. Quite hardy.

Each	Each
1½ ft\$0.75	$3\frac{1}{2}$ ft\$3.50
2 ft 1.50	4 ft 5.00
2½ ft	4½ ft 6.00
3 ft	5 to 8 ft \$7.50 up

pungens (Colorado Spruce). A very hardy and fine tree from the Rocky Mountains. The branches are set in regular whorls which diminish in size as they near the top, forming a very symmetrical, pyramidal tree of conical outlines. Leaves glaucous green, rigid and spine-pointed.

Each	Each
$1\frac{1}{2}$ to 2 ft\$2.50	4 ft\$7.50
$2\frac{1}{2}$ ft	4½ ft10.00
	Specimens. \$12.00-15.00 up

pungens glauca (Colorado Blue Spruce). One of the most attractive evergreens cultivated, entirely hardy; has the same good qualities as the one above but the leaves are of an elegant, glaucous blue tint. Will succeed in locations where many evergreens fail.

Each	Each
2 to $2\frac{1}{2}$ ft\$7.50	4 ft\$12.00
3½ ft	4½ ft 15.00
Specimens	

pungens glauca Kosteri (Koster's Blue Spruce). The Blue Spruce of Colorado, greatly improved. An indispensable addition to every estate. The attractive silvery blue color stands out strongly against the green of all other shrubbery and evergreen. A healthy, vigorous grower and very hardy. It is a favorite tree and should be in every garden.

Each	Each
1½ to 2 ft\$12.00	4 ft\$25.00
$2 \text{ to } 2\frac{1}{2} \text{ ft.} \dots 15.00$	5 ft 30.00
	\$35.00 to \$75.00

Picea pungens glauca Kosteri

#### PINUS. The Pines.

Pines are natives of lowlands and mountainous regions and withstand well the cold, bleak winds to which they are subjected. The tall growing varieties are among the most ornamental trees, both for planting as a background in landscape gardening or as single specimen. Their appearance makes them remarkably distinct characters. The dwarf forms are very valuable for landscape, rockery and hillside planting.

austriaca (Austrian Pine). A tall, massive tree, with spreading branches heavily plumed with long, stiff, dark green needles.

Each	Each
2 to 3 ft \$3.50	5½ ft\$9.50
3 to 4 ft 5.00	6 ft12.00
$4\frac{1}{2}$ ft	$6\frac{1}{2}$ ft
5 ft 8.00	7 to 8 ft $$20.00-27.00$

Mughus (Dwarf Mugho). One of the best dwarf evergreens for rocky banks, terrace slopes, small lawns, and very effective when grown at the corners of entrances, either single or in company with other evergreens. It is broader than its height and sometimes almost prostrate.

Each	Each
1 ft. spread\$3.00	1½ ft. spread\$4.00

#### SCIADOPITYS VERTICILLATA

#### (Japanese Umbrella Pine)

The odd foliage is arranged in whorls of fifteen to thirty long, narrow needles of lustrous, deep green color. A rare tree and a gem in any collection.

Each	Each
2 ft\$4.00	3 ft\$7.50
$2\frac{1}{2}$ ft	$3\frac{1}{2}$ ft

#### TAXUS. Yew

The Yews are very desirable evergreens, they are highly effective and ornamental in bed, group or specimen planting. Their very large, blackish-green foliage makes a fine contrast with the other evergreens, they withstand clipping well, and are therefore well suited for producing formal effects.

baccata repandens (Spreading English Yew). A form of low, spreading habit, grows rarely over 4 ft. high; long, dark green foliage.

Each

Each

Each

1 to 1½ ft. spread....\$5.00 | 2 ft. spread......\$5.00 cuspidata brevifolia. A dwarf evergreen of spreading form, eventually making a mass 10 ft. broad, and only 3 to 4 ft. high. The foliage is very dark. Altogether a handsome and most attractive plant.

Eacu		Eaca
1 ft. spread\$2.75	-	1½ ft. spread\$5.00
1 to 1½ It. spread 4.00	- 1	$1\frac{1}{2}$ to 2 ft. spread 7.00

cuspidata (Japanese Yew). A handsome, spreading Yew which is hardy in any situation.

	Each		Each
1 ft. spread\$	2.00	$1\frac{1}{2}$ ft, spread.	\$3.00
		\$5.00	

cuspidata capitata. Much like the foregoing, but instead of being so bush-like, carries a center leader. Perfectly hardy and should be found in every evergreen planting.

Each	Each
1 ft\$2.50	2½ ft\$6.00
$1\frac{1}{2}$ ft	3 ft 8.50
2 ft 5.50	$3\frac{1}{2}$ ft

A planting of Koster Blue Spruce 10 to 12 feet high on the grounds of F. A. Danker, Albany, N. Y.

#### THUJA. Arborvitæ

A group of useful, hardy evergreens of varied forms; especially desirable for formal gardening as they can easily be clipped to any shape and for this reason are almost indispensable. Their clean, neat, compact appearance makes them useful in grouping, bedding, bordering and formal gardening, for cemetery and lawn specimens, for hedges. screens, window boxes, vases and house decorations.

occidentalis (Common American Arborvitæ). The well-known screen and hedge plant. Grows naturally to a tree 40 ft. tall, but can be kept down to any size by shearing. Each 2 to 2½ ft. . . . . \$3.00 | 4 ft . . . . . . . . . . . . \$6.00

2 to 2½ ft. \$3.00 | 4 ft. \$6.00 | 3 ft. 4.50 | 5 ft. 7.50 | 3½ ft. 5.00 | 6 ft. 9.00 | Specimens, 7 to 8 ft. \$12.50 to 15.00 up

occidentalis globosa. Round form. Much used for window boxes and low plantings.

Each Each

occidentalis lutea (Golden Arborvitæ). Growth much like the occidentalis. Foliage is of an attractive yellow hue. Each 2 to 3 ft........\$6.00 | 3½ ft........\$7.50

occidentalis pyramidalis (See illustration, page S). This is the hardiest of the pyramidal Arborvitæs and should be used extensively. It is the best variety for formal plantings.

 occidentalis sibirica. Grows very compact and low, much like a dwarf. The foliage is of a dark rich green. Very hardy and is one of the best evergreens for entrances and grouping.

Each

Each

Rosenthali (Thuja pyramidalis Rosenthali). One of the newer varieties of pyramidal form. This evergreen grows more compact than other Thujas and the leaves are darker green. A beautiful and graceful tree.

#### TSUGA. Hemlock Spruce

canadensis. One of the evergreens for planting in shady places and where it will find a little protection. Prefers moist soil, and grows rapidly after it gets established. A graceful tree, with loose, open growth, and Yew-like foliage. It may be kept in dense form by pruning.

Each

#### Tsuga caroliniana (Carolina Hemlock)

With dark, dense, tufted foliage on pendulous branches, makes a very beautiful specimen.

Each

Each

Each

#### **EVERGREEN SHRUBS**

Only the most hardy varieties will thrive in this locality, provided they are planted in a protected, shady place and have an acid soil, which can be attained by mixing topsoil with imported granulated Holland peat or leafmold.

RHODODENDRON catawbiense, AZALEA in varieties, KALMIA latifolia (Mountain Laurel), DAPHNE cneorum. Prices on application.

Malus (Flowering Crab)

## Deciduous Trees

Whether for beautifying your country estate, screening some objectionable object, for shade in your dooryard, for windbreaks, for real estate investment, or for the sake of others, plant trees. We carry a large assortment of deciduous trees, especially suitable for Albany or vicinity street and ornamental planting. All our trees are finely shaped, well rooted, and have been transplanted one or more times. Prices here quoted apply to trees ranging from 6 to 10 feet, according to species and variety. We can supply larger specimens of many sorts, with stems varying from 2 to 4 inches in diameter. These trees range in price according to species, size and general make-up. Special prices quoted where a quantity is wanted.

## Reliable List of Hardy Climbing Vines

#### AMPELOPSIS VEITCHI

(Boston or Japan Ivy)

The most popular and desirable climbing plant for covering brick, stone, or wooden walls, trees, etc.

The foliage is of a rich olive green during the Summer, changing to various shades of bright crimson and scarlet in the

One year, 50c. each, \$5.00 per doz.; two year xxx, 75c. each, \$8.00 per doz.

#### Ampelopsis quinquefolia

(Virginia Creeper, or American Ivy)

This well-known climber is one of the best and quickest growing varieties for covering trees, trellises, arbors, etc.; its large, deep green foliage assumes brilliant shades of yellow, crimson and scarlet in the Fall.

Extra strong, 2-year plants, 50c. each.

#### ARISTOLOCHIA SIPHO

(Dutchmans-pipe Vine)

A vigorous and rapid growing climber, bearing singular brownish-colored flowers, resembling in shape a pipe. Its flowers, however, are of little value compared to its fine, light green leaves which are of very large size and retain their color from early Spring to late Fall; perfectly hardy. Extra strong plants, \$1.50 and \$2.00.

Wisteria sinensis

#### CLEMATIS

As a climber for the veranda, garden walls, fences or arbors, it has no rival among the strong growing blossoming plants. The Clematis should be grown in rich, deep sandy loam and well mulched for the Winter.

## Purple...

)	white. One of the best hardy chimbers, producing	
1	their great trusses of flowers in abundance during the	
ш	month of May. They should be liberally fed when	
- 1	first planted to give them a vigorous plant	1.00
)	Larger Vines	5.00

Spiraea Vanhouttei (See page 17).

## Hardy Deciduous Shrubs

In this class are included the most popular and better known of our hardy flowering and ornamental shrubs. Their popularity is based on the wealth of flowers which they produce and their adaptability to the most ordinary conditions. No class of plants presents to our landscape a greater array of blossoms or a more symmetrical arrangement of their flowers, and once established, with the exception of a periodical trimming, may be left to take care of themselves, increasing in size and beauty from year to year. All shrubs offered are strong and healthy, mostly 3- and 4-year old.

AMYGDALUS, FLOWERING ALMOND. Early Spring
flowering shrubs, fully in bloom before the leaves ap-
pear. The beautiful rose or white flowers snuggle tight
to the twigs.
Double White, 2-3 ft\$1.00
<b>Double Pink,</b> 2-3 ft
<b>ALTHAEA</b> (Rose of Sharon). Blooms late in August and Sep-
tember. Brightly colored flowers. Very attractive. Should
have a little protection in Winter until established.
White, Pink. Each 75c.
BERBERIS thunbergi (Japanese Barberry). An indis-
pensable shrub because of its adaptability for most any
purpose. Absolutely the very best hedge shrub for this
climate. Each 100
$1-1\frac{1}{2}$ ft. (25 at 100 rate)\$0.25 \$18.00
$1\frac{1}{2}$ -2 ft. (25 at 100 rate)
$2 \cdot 2 \frac{1}{2}$ ft. (25 at 100 rate)

#### BOX BARBERRY

The Box Barberry successfully takes the place of the Box borders for edging beds in formal gardens and along walks, where Boxwood is not hardy.

2-yr. vigorous plants, field grown, \$25.00 per 100.

vulgaris. Tall and strong grower, bearing an abundance of red fruit. Each 50c., 75c., \$1.00.
vulgaris purpurea. Tall grower with purple leaves and

red fruit. Each 50c., 75c.

#### A Novelty in Shrubs NEW RED-LEAVED JAPANESE **BARBERRY**

(Berberis thunbergi atropurpurea)

It is similar in all respects to the well known Japanese Barberry, which is so popular for foundation planting and hedges, but the foliage of this new variety is of a rich, bronzy red, getting more brilliant throughout the Summer, changing in the Fall to bright orange and scarlet with bright scarlet berries. Should be planted in full exposure to the sun.

Heavy, 2-yr.-old plants, \$1.00 each, \$10.00 per doz., \$75.00

BUDDLEIA veitchi, Improved (Butterflybush). A beautiful shrub, bearing long sprays of lilac-colored flowers with great freedom until stopped by frost. Each 50c. and \$1.00.

CALYCANTHUS floridus (Sweet Strawberry Bush, or Carolina Allspice). A unique shrub of good growth, blossoming oddly at the leaf axils in double spicy fragrant flowers of chocolate-red. Each 75c.

CORNUS florida (Dogwood). White. 7 to 8 ft. tree form \$5.00 to \$6.00.

florida rubra. Red. The Dogwoods have many desirable qualities to place them among the most popular flowering trees. The early Spring flowers are followed with attractive red berries. The leaves have brilliant shades of scarlet in the Fall. 3 to 4 ft. Each \$2.50.

elegantissima variegata. Shrub. Grows 6-8 ft. high, with purplish-red branches and beautiful silver varie-

gated foliage. Each \$1.00.

lutea (Yellowtwig) Shrub. A striking yellow-branched

form, very satisfactory for contrasting. Each 50c. sibirica (Redtwig) Shrub. Grows 6-8 ft. high, with clusters of fine white flowers, succeeded by a Fall crop of ornamental berries, stem and branches turning to bloodred in Winter. Each 50c.

CYDONIA japonica (Japanese Quince). This shrub is completely covered with dazzling scarlet flowers in early Spring, followed by small quince-shaped fruits which are

quite fragrant. 1½-2 ft., each 75c.

DEUTZIA gracilis. Dwarf growing, densely bushy, its branches wreathed with pure white flowers in May.

75c. each.

lemoinei. Large flowers of pure white, borne in cone-

shaped heads. 2-2½ ft. each 75c.

crenata magnifica. A most distinct new variety with large corymbs of pure white flowers growing from 3-4 ft. high. Each 75c

EUONYMUS alatus (Cork-barked Euonymus). Grows 8 ft. high. Small, delicate flowers in late Spring are followed by attractive red berries in the Fall. Curious corky bark, brilliant Autumn foliage. Best for individual planting. 3 ft., each \$2.00; 4 ft., each \$4.00 to \$5.00. Large Specimen Plants. \$7.50 to \$10.00 each.

**EUONYMUS europaea.** A large shrub, bearing rose-colored capsules with red seeds in Autumn. Striking, conspicuous.

3-4 ft., each \$1.00 to \$2.00.

Large Specimen Plants. \$5.00 and up.

Cydonia japonica. Flowering Quince

New Buddleia veitchi improved. Butterflybush (See page 14).

**EXOCHORDA** grandiflora (Pearlbush). Bears clusters of beautiful white flowers in May-June. 3-4 ft., each 75c.

FORSYTHIA fortunei. Erect branches and dark green foliage. 3-4 ft., 75c.

suspensa. Characterized by its graceful, drooping habit. 2-3 ft., each 75c.

viridissima. Erect shoots, spreading branches and narrow, bright, glossy leaves. 2-3 ft., each 75c.

HYDRANGEA arborescens (Hills of Snow). Flowers are similar to the familiar "Snowball" in appearance. A native variety, with white flowers in July. Each 75c. and \$1.00.

paniculata grandiflora. Wonderfully attractive when laden with their massive white flowers from August till Autumn. Single specimens, severely pruned every Spring and large beds kept in uniform development are extremely showy. Each 75c., \$1.00, \$2.00.

Tree Form. \$2.00 to \$2.50.

KERRIA japonica. Graceful, slender, drooping branches, laden with a wealth of rich yellow flowers resembling large Buttercups. May-June. 3-4 ft., each 75c.

**LIGUSTRUM ibolium.** Strong, 2-yr. stock, several branches, not to be compared with California Privet. Absolutely hardy and the very best Privet for this climate. Will not winterkill. \$18.00, \$25.00 and \$30.00 per 100.

nanum compactum (Lodense Privet). This is a new dwarf and distinct form of Privet. The foliage is of a rich dark green and of extreme hardiness. It is particularly useful for low hedges and borders. It stands shearing very well and makes a good decorative plant for jardinières and tubs. Strong 2-year-old plants, 35c. each, \$25.00 per 100; large ball-shaped plants (specimens), \$2.00 and up.

LILAC, Common Purple. Each 50c., \$1.00, \$1.50. Common White. Each 50c., \$1.00, \$1.50.

FRENCH NAMED LILAC. All varieties. \$2.50 and up. Hugo Koster (New). Beautiful shade of lilac.

Giant des Battailles. Large trusses of medium-sized

flowers. Single. Blue.

Jules Simon. Very large flowers and trusses; lilac-mauve passing to pale azure. Double.

Mme. Casimir Perier. Very large; white; double.

Mme. Lemoine. A very fine pure white; double.

Michael Buchner. Dwarf, pale lilac; very double. President Grevy. Very large, handsome soft blue; flowers very double.

#### LONICERA (Bush Honeysuckle).

fragrantissima. The early pink and white flowers are sweetly fragrant, and its foliage remains till late in Winter, Each 75c.-\$1.00.

morrowi. A spreading variety, growing 4-6 ft. tall. June. Flowers white and bear very handsome fruit. Each 75c.

tatarica alba. A variety of upright habit, with very large, pure white flowers. June. Each 75c.

rubra. Deep rose-pink flowers; early.

PUSSY WILLOW. Grow your own Pussy Willows. For cut sprays we offer the giant variety, strong shrubs. Each 50c. and \$1.00.

Pussy Willow

Forsythia fortunei

PHILADELPHUS coronarius (Garland Mockorange). A fine old form grows, 8-10 ft. tall. Its large white flowers in very graceful sprays are delightfully scented. Each 75c.,

aureus (Golden Syringa). Valuable for contrasting grouping and the best golden-leaved shrub. Each 75c., \$1.00. grandiflorus. Very large flowers in June. Each 75c., \$1.00. virginalis. One of the most beautiful new varieties. Strong, tall grower, with very large, double-crested flowers with round petals. Pure white, sweetly scented, clusters of five to seven. Each \$1.00, \$1.50.

PRUNUS pissardi (Purple-leaved Plum). Handsome and distinct little tree, covered with a mass of small, white, single flowers in Spring; later with showy pinkish-purple leaves that deepen in color to the end of the season. Each \$1.00, \$1.50 and up.
triloba (Double-flowered Plum). The whole tree is decked

in a fleecy cloud of very double, light pink blossoms in early Spring before its leaves appear. Very effective on a still, leafless landscape. Each \$1.00, \$1.50.

RHUS cotinus (Purple Fringe, or Smoketree). A small tree or conspicuous spreading shrub with large leaves; overhung in Midsummer by mist-like clouds of tiny flowers. These billowing panicles are a light lavender when fresh, very persistent, and give the impression of smoke at a distance. Each 75c. and \$1.00.

typhina laciniata (Staghorn Sumach). A fern-leaved variety, flowers during June and July in panicles. Each 60c.

RHODOTYPOS kerrioides (White Kerria). 3-6 ft. attractive shrub, with yellowish-green corrugated foliage and large, single white flowers late in May. The black seeds which follow are large and showy. Each 50c., 75c., \$1.00.

aurea (Golden Elder). The golden yellow leaves of this Elder give heightened effects in tone and color. Grows naturally 10-12 ft., but can be pruned into a neat, compact little bush. Each 50c.

A Foundation Planting of Flowering Shrubs

SPIRAEA Anthony Waterer. Very free flowering. The best dwarf, bushy, spreading type and with large corymbs brilliantly colored in rosy crimson. Each 75c.

froebeli. Similar to Spiraea Anthony Waterer, but more robust, has better foliage of a reddish-bronze tint. Each 75c., \$1.00.

prunifolia, flore pleno (Bridalwreath). Plum-leaved foliage, tall grower but will prune to any desired height. Its long, curving branches are covered their whole length with small, double white flowers in early Spring.

opulifolia aurea (Golden-leaved Ninebark). With goldenyellow, tinted foliage and double white flowers in June; showy. 75c.

thunbergi. One of the best of all low-growing shrubs, with fine, delicate foliage and a profusion of small white flowers in April and May. Each 75c.

vanhouttei. One of the very best of all shrubs. A complete fountain of pure white bloom in May and June. Each 50c., 75c., \$1.00.

SYMPHORICARPOS racemosus (Snowberry). A wellknown shrub with inconspicuous rose-colored flowers in June and July, followed by large clustered, milk-white fruits which remain far into Winter. Each 50c., 75c. \$1.00.

reynaulti. New Chinese shrub with large red berries. 2 to 3 ft. \$1.00 each.

vulgaris (Indian Currant). A medium-sized shrub of graceful habit, with small foliage and flowers, covered with small purple fruit which hangs in Winter. A splendid shrub for hedge and will stand a great deal of shade. Each 50c., 75c.

VIBURNUM carlesi. A new introduction from China. The flower buds are formed in Fall, developing in Spring into large corymbs of flowers, resembling a Bouvardia; of rosy white, exhaling a delicious perfume more powerful than the Jasmine. Being hardy in this climate, it is one of

the most valuable shrubs. Each \$3.00. dentatum (Arrowwood). Bright green, heart-shaped leaves turning to purple and red; flowers creamy white, in flat cymes; May and June. The fruits blue-black. Each 75c., \$1.00.

lantana (Wayfaring-tree). May and June. White flower clusters, succeeded by red fruits that later turn black; charming throughout the Summer. Leaves beautifully wrinkled. Each 75c., \$1.00.

opulus (Highbush Cranberry). May and June. Spreading habit. Single white flowers borne in flat, imperfect clusters. Valued for the brilliant red berries that cling to the leafless branches during the early part of the Winter. Each 75c., \$1.00 and up. sterilis (Snowball). Guelder Rose, or old-fashioned Snow-

ball. Each 75c., \$1.00.

plicatum tomentosum. Large, flat cymes of pure white flowers, borne along the branches in the greatest profusion in June. The single form of the Japan Snowball. A very handsome and desirable shrub. Each 75c.

WEIGELA Eva Rathke. The most distinct and one of the most attractive varieties. Flowers deep carmine-red. Each 75c.

rosea. A tall growing shrub, with deep pink flowers in the greatest profusion during June. Each 75c.

Variegated foliage. 75c. Bronze foliage. 75c.

Weigela (Diervilla) lutea. 75c.

#### FRUIT DEPARTMENT

We are prepared to plan and lay out fruit gardens, making selections of varieties and number of plants necessary for a supply of fresh fruit for family use, and give special prices. Place your orders for fruit trees early.

#### CRAB APPLE

**Hyslop.** Large, deep crimson; very popular. October.

#### SUMMER APPLES

Red Astrachan. Large, nearly covered wish deep crimson; juicy and tart.

Yellow Transparent. Pale yellow when ripe; flesh tender, juicy, subacid; a free grower and early bearer.

#### **AUTUMN APPLES**

**Duchess.** Skin yellow streaked with red. Flesh juicy and good. Strong grower and abundant bearer.

Fall Pippin. Large, roundish oblong; yellow; flesh tender, rich and delicious. October to December.

Wealthy. Medium, deep red, juicy, fine quality, productive. October.

#### WINTER APPLES

Baldwin. Large, bright red, crisp, juicy and rich; very productive.

**Delicious.** Large, bright red, highest quality.

Northern Spy. Pale yellow, striped with red, good keeper, excellent flavor; grows best in cold climates.

McIntosh. Early Winter Apple. One of the best and most beautiful red dessert Apples.

Apple Trees, \$1.50 each

#### **CHERRIES**

Black Tartarian. Sweet, very large, bright purplish-black, tender, juicy, and of rich flavor.

Montmorency. Large, red, very productive, best for preserving tart. Early July.

Schmidt's Bigarreau. Sweet, large, dark red fruit, strong, vigorous

Yellow Spanish. Late June. Yellow with red cheek; firm, juicy and delicious. The most popular of all light-colored Cherries.

Cherry Trees, \$1.50 each

#### **PEACHES**

Hale, J. H. New Yellow). Fruit large, globular. Flesh deep yellow, fine-grained, firm, tender and flavor delicious.

Crawford's Early. Fruit large, oblong; skin yellow, red cheek; flesh deep yellow, juicy.

Elberta. Large, yellow, with red cheek; flesh yellow and of delicious flavor.

Rochester. Greatest early freestone, long-keeping, yellow Peach. Good shipper. Very hardy, quality superior.

Bearing Size Peach Trees, \$1.00, \$2.00, \$3.00

Concord Grapes

#### **PEARS**

Bartlett. Summer Pear. Buttery, very juicy and high flavored; bears early and abundantly. September. Clapp's Favorite. Summer Pear.

Clapp's Favorite. Summer Pear. Very large, yellowish and melting; flushed red on sunny side. September.

Flemish Beauty. Fall Pear. Large, sweet and good. Grown largely throughout the North.

Kieffer. Autumn Pear. An early and very prolific bearer; wonderfully showy.

Seckel. Autumn Pear. Small yellowish-brown; flesh very fine grained, sweet, exceedingly juicy, buttery.

Pear Trees, \$1.50 each Large bearing size fruit trees, 4-yr. old trees, \$3.00 and up.

#### **PLUMS**

Abundance. Amber; flesh yellow; juicy, tender, sweet; productive. September.

**Burbank.** Large, clear cherry-red; an abundant bearer. September.

Lombard. Medium size; oval, violetred, flesh yellow; vigorous, great bearer. September.

#### Plum Trees, \$1.50 each

#### OUINCE

The Quince crop is usually reliable and not often destroyed by capricious weather variations. Very much desired for preserves, jellies and canning. Fruits are quite fragrant, and the trees and bloom highly ornamental. Each \$1.50

#### **GRAPES**

Agawam. Dark red or maroon; bunches compact, very large; berries large, oval; pulp soft; flavor sweet and aromatic. Ripens early, is very attractive. One of the best of the red varieties.

**Concord.** Black and handsome large Grapes; a very hardy, reliable and productive variety, succeeding everywhere.

Wyoming.

Diamond, Moore's. White. A vigorous grower, with large, dark, healthy foliage, very hardy. It is a prolific bearer, producing large, handsome, compact bushes.

Niagara. White. Vine hardy and strong grower; bunches very large and compact, many weighing fourteen ounces, sometimes more; berries large, skin thin but tough. The most popular white Grape.

popular white Grape.

Grapes, 2- and 3-years, each 50c.,
doz. \$5.00

#### GOOSEBERRIES

Industry. Red. Bush a strong grower and the most productive of the European varieties; fruit large, dark red, mild, sub-acid, sweet and good flavor. Less subject to mildew than others. One of the best for the market.

Each 35c., doz. \$3.00

#### RASPBERRIES

**Columbian.** Purple. A very vigorous grower and very hardy. Delicious for table or canning.

Cumberland. Black. The bush is hardy, a vigorous grower and exceptionally productive. Fruit of uniform size, and larger than any known black Raspberry.

Latham. A new red Raspberry that has proved to be the best in competition with all others. Each 15c.,

doz. \$1.50, 100 \$10.00.

St. Regis. Red. Raspberries for four months. An everbearing variety. They are Raspberries of the very highest grade in size, in brilliant crimson color, in firmness, in flavor. This has been aptly termed the "early-till-late" variety, for it is the first red Raspberry to give ripe fruit, while it continues to produce berries without intermission until late in October.

Each 15c., doz. \$1.50, 100 \$10.00, except where noted.

Doz. \$1.00, 100 \$6.00

BLACKBERRIES Snyder Blackberries.

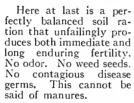

Dark patch is the odorless Alphano, all ready to be raked into the grass out of sight. For lawns it is a wonder worker.

Dig it around your shrubs. It quickens their vitality and multiplies their bloom.

## We have the Agency in Albany for

## Alphano Humus

## The Ideal Soil Enricher for Lawn and Garden

It gives the proper tilth to the soil. It loosens up compact ones and binds together loose ones. Defying dry weather, it acts as a soil moistening sponge. Prevents soluble plant foods from leaching away before benefiting the roots.

It contains all the essential soluble mineral plant foods, all of which are now so prohibitively high. The potash alone it contains

would cost you several dollars; to say nothing of its phosphates and nitrogen.

It is also liberally inoculated with Alphano inoculant, filling it with teeming billions of all the nitrogen - gathering and fixing bacteria for the legumes, such as Alfalfa, Clovers, Peas, Beans and the like.

Alphano is cheap to buy, easy to use, gives quick results the first season, and continues its benefits the next.

It is sweet, dry and finely granulated.

Don't confuse it with the unprepared, often sour, water-logged humus sold under various names.

50 lb. bag	\$1.25
100-lb. bag	2.00
500 lbs. in bags	
1000 lbs. in bags	
1 ton, 2000 lbs. in bag	

Special price for direct factory shipments on carload lots.

Your garden will not be a success unless you use liberal amounts of fertilizer.

Being odorless, it stimulates both your pleasures and the blooms in your flower garden.

In planting your vegetable or flower seeds, sow some Alphano right in the drills. It gives the young plants plenty of just the ready food they need, for quick, strong growth

Each

You can have a garden of Roses like this by using our carefully selected potted Roses

## Best Hardy Garden Roses

While our old customers are familiar with the grade of Roses which we send out, we wish to direct the attention of those who have never planted our stock to the manner in which these plants are prepared. The bulk of our Roses are field-grown plants, having been cultivated in fields during the growing season of 1926 and 1927. In Fall they were carefully dug, planted in pots and stored in cold storehouses, where artificial heat is only used to exclude severe frost and are then moved into frames outdoors in early Spring and gradually exposed to the weather. Under this treatment the plants develop in the most natural way, and are much superior to stock which has been forced in a high temperature into an unnatural and weakened growth, and to comparatively worthless Roses which are sold so cheaply in a dormant condition.

SELECT NEW	HYBRID	TEA	ROSES	Each
------------	--------	-----	-------	------

Lady Margaret Stewart (1927 New). A Rose of unique and distinct color. The flowers in the young stage are a deep, sunflower yellow, heavily veined and splashed with orange-searlet with the reverse of petals deeply suffused with carmine, long-pointed buds; delightfully sweet-scented.

Ville de Paris (City of Paris). Rich, buttercup-yellow retaining its color under all weather conditions; habit upright and tall; a profuse bloomer.

 Rev. F. Page Roberts. A most beautiful shaped, long bud and full, double flower of a rich orange-gold shading to saffron yellow; growth vigorous and very free flowering. The most beautiful Rose of its color yet introduced.

Souvenir de Claudius Pernet

#### HYBRID TEA ROSES

The following varieties bloom all Summer

Most of these plants are budded or grafted, and while some planters prefer stock grown on their own roots on account of the liability of budded plants to throw up suckers, this will rarely occur if deep planting is practiced, and if a wild shoot should appear it should be removed close to the root. Much can be said in favor of budded plants, being more vigorous, producing finer blooms, come into bearing sooner, and are just as permanent and hardy as those on their own roots.

American Beauty. The popular forcing Rose. Rich, rosy crimson. Each \$1.00, doz. \$12.00, 100 \$90.00.

Angele Pernet. Tango color describes this Rose; long bud. Each \$1.50.

Betty. Coppery rose, particularly free flowering in Autumn. Each \$1.00, doz. \$12.00, 100 \$90.00.

Caroline Testout. Bright satiny rose; very free and fragrant. Each \$1.00, doz. \$12.00, 100 \$90.00.

Columbia (E. G. Hill, 1918). Fine pink, very double and grown by hundreds of thousands for market. Each \$1.00, doz. \$12.00, 100 \$90.00.

Constance (Pernet-Ducher, 1915). A free flowering variety, producing beautiful, long, orange-yellow buds. Each \$1.00, doz. \$12.00, 100 \$90.00.

Double White Killarney. Pure white. Each \$1.00, doz. \$12.00, 100 \$90.00.

Edel. Enormous, well-built white flower with faintest ivory white at base; very free flowering; delightfully scented. The best white Rose. Each \$1.00.

Rose, Mrs. Aaron Ward

Rose Edel

Etoile de Feu. Very large, full, double globular flower of a salmon-pink color shaded with flame. Each \$1.00.

Eldorado (Land of Gold). Golden yellow with base of petals slightly tinted red. Each \$1.00.

Felicity. Mallow-pink shading to cerise at edges; long bud, sweet-scented. Each \$1.00.

Francis Scott Key. Large, double flowers of unusual substance. Considered the highest grade florist red Rose today. Each \$1.50.

Golden Yellow. Each \$1.00, doz. \$12.00, 100 \$90.00.

Gorgeous. Flowers large, full and fine form; amber-yellow veined with reddish copper. Novel color; strong, vigorous habit. Each \$1.00, doz. \$12.00, 100 \$90.00.

Gruss an Teplitz. This is the reddest of all the red Roses. Strong grower. Each \$1.00, doz. \$12.00, 100 \$90.00.

**Hadley.** Deep velvety crimson; intensely fragrant. Each \$1.00, doz. \$12.00, 100 \$90.00.

H. V. Machin. A gorgeous exhibition variety. Scarlet crimson, carried on rigid, sturdy stems with ideal foliage. Each \$1.00, doz. \$12.00, 100 \$90.00.

Jonkheer J. L. Mock. Silvery pink; highly perfumed. Each \$1.00, doz. \$12.00, 100 \$90.00.

Kaiserin Auguste Viktoria. Soft, pearly white. Each \$1.00, doz. \$12.00, 100 \$90.00.

**Lady Alice Stanley.** Deep coral rose; inside pale flesh. One of the best bedding varieties. Each \$1.00, doz. \$12.00, 100 \$90.00

Laurent Carle. Sweet-scented; brilliant carmine. Each \$1.00, doz. \$12.00, 100 \$90.00.

#### HYBRID TEA ROSES-Continued

Los Angeles (Howard & Smith, 1917). This is by far one of the finest Roses ever introduced; flame-pink toned with coral; fragrance equal to Marechal Neil; will be as popular as the Jack Rose. Stock limited this year. Each \$1.00, doz. \$12.00, 100 \$90.00.

Lulu. Orange-red, shaded with salmon-pink, reminds one of the miniature or Fairy Rose Mme. Cecile Brunner, but much larger. Each \$1.00, doz. \$12.00, 100 \$90.00.

Josephine Thomas. Cream flesh; orange salmon at center; good for cutting. Each \$1.00.

Miss Lolita Armour (Howard & Smith, 1920). Very unique. Color absolutely distinct coral-red with golden, coppery-red suffusion; strong grower. Each \$1.00, doz. \$12.00, 100 \$90.00.

Mme. Butterfly. Blush pink, suffused apricot and gold, of good texture and fragrance. Each \$1.00, doz. \$2.00. 100 \$90.00.

Mabel Morse. Rich golden yellow, not as large as Claudius Pernet, but a beautiful, long-shaped bud. Awarded a gold medal by the National Rose Society of England. Each \$1.00.

Mme. Edouard Herriot (The Daily Mail Rose). Coral-red, shaded yellow at base; open flowers of medium size; semi-double, rosy scarlet passing to shrimp pink. Each \$1.00, doz. \$12.00, 100 \$90.00.

Mme. Segond Weber. Soft shade salmon-pink. Each \$1.00, doz. \$12.00, 100 \$90.00.

Mrs. Aaron Ward. Indian yellow; very free and fragrant; a great favorite, blooms all Summer. Each \$1.00, doz. \$12.00, 100 \$90.00.

Mrs. A. R. Waddell. Rose salmon; a good garden variety. Each \$1.00, doz. \$12.00, 100 \$90.00.

Mrs. Chas. Lamplough. Light lemon of large size, very sweetscented. Each \$1.00.

Hadley

Mrs. Henry Morse. A most perfect form; bright rose; the largest and most pointed of all Roses. Each \$1.00.

Mrs. Redford. Bright, apricot-orange upright growth; perfect form; fine bedding Rose. Each \$1.00.

Mrs. J. C. Ainsworth. A sport from Mrs. Chas. Russell, of which it is a counterpart, in strong, vigorous habit of growth; large, well-shaped buds and fine, full double flowers; color peach blossom pink, shaded to delicate mauve, tinted white at edges. Each \$1.00.

Mrs. W. C. Miller. Bright pink and perpetual flowering; none better as a bedder. Each \$1.00, doz. \$12.00, 100 \$90.00.

Ophelia. Delicate shade of salmon flesh, shaded with rose; long, pointed bud; very free flowering. Each \$1.00, doz. \$12.00, 100 \$90.00.

Pink Killarney. A great garden Rose; very free and fragrant. Each \$1.00, doz. \$12.00, 100 \$90.00.

Premier (E. G. Hill, 1919). A new variety that has gained popularity as a forcing sort. Pure rose-pink; good size, long bud. Each \$1.00, doz. \$12.00, 100 \$90.00.

Mrs. Wm. C. Egan. Strong, vigorous grower, color two-tone pink; long bud, stiff stems. Each \$1.00.

**Padre.** Long petals of a coppery scarlet flushed yellow at base. Each \$1.00.

Queen Alexandra. A brilliant flower of intense vermilion, deeply shaded old gold on reverse of petals. Each \$1.00.

Queen of Fragrance (Wm. Paul & Son, 1916). Shell-pink tipped with silver. Noted for its delicious fragrance. Winner of prizes wherever shown. Each \$1.00.

Radiance. An ideal bedding variety of remarkably free flowering habit; of a brilliant carmine-pink, with yellow shadings at base of petals. Each \$1.00, doz. \$12.00, 100 \$90.00.

Red Radiance (New). Same ideal habit as Radiance only in color. Each \$1.00, doz. \$12.00, 100 \$90.00.

Rose Marie (Dorner, 1918). Clear rose-pink; claimed to be the very best bedding Rose of its color. Each \$1.00.

Radiance

#### HYBRID TEA ROSES-Continued

Souvenir de George Beckwith. Shrimp pink tinted chrome yellow, shading to deeper yellow at base of petals. Each \$1.00.

Souvenir de Georges Pernet. Oriental red, suffused with a golden sheen. Each \$1.00.

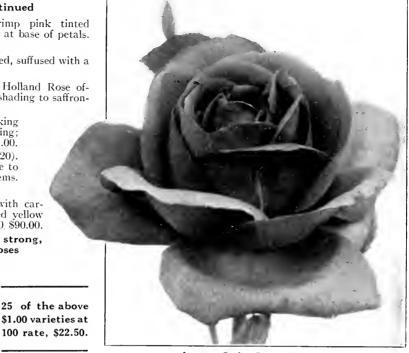

Souvenir de H. A. Verschuren. New Holland Rose offered for the first time. Apricot yellow shading to saffronyellow. Each \$1.00.

Souvenir de Claudius Pernet. Color striking sunflower yellow without any color blending; does not fade in warm weather. Each \$1.00.

William F. Dreer (Howard & Smith, 1920). Soft, silvery shell-pink. Similar in shape to Los Angeles. Strong grower. Stiff stems. Each \$1.00.

Willowmere. Coral-red color suffused with carmine in the bud state: long bud, shaded yellow in center. Each \$1.00, doz. \$12.00, 100, \$90.00.

All our Roses are two-year-old, extra strong, and will produce quantities of Roses during the first season

## Danker's Select Dahlias

We make a specialty of fancy Dahlias, and can offer only a few on this page. Come and see our fields while in bloom.

The very best will be found in our collection.	
DECORATIVE	Each
Amun Ra (The Sun God) (Giant Decorative). This is one of the most sensational of the new Dahlias; color, copper and orange tones. First prize, California Dahlia Society 1921 Show. A variety that stands out above all others	81. <b>0</b> 0
Augustinus. One of the Chrysanthemum-flowered types of decoratives. Flowers are very large, long petals, which are more or less twisted, forming a most graceful, pleasing flower. The ground color is a rosy salmon overlaid with bright metallic lilac; a splendid stem and very free flowering	.75
Bazar (Decorative). An extra large, fine blossom that is a combination of California sunset shades, soft chrome-yellow overlaid with red; this Autumn-tinted flower averages 9 in	1.00
Earle Williams. An exceptionally fancy or variegated variety; brilliant crimson-scarlet, each petal tipped with white.	1.00
Eldorado. Size, stem and color are the best. Stock of this variety is in big demand and scarce	5.00 1.00
twisted petals	.75
Lady Elizabeth. A salmon-pink, very prolific Le Grosse Bete (Decorative). Crimson shaded cerise, long, stiff stem, very early-flowering; a good cut flower. Millionaire. One of the largest decorative Dahlias	1.50 1.00
grown; very pretty lavender orchid	1.00
Myra Valentine (Decorative). A large, bronzy bloom having every good habit that the most discriminating grower may desire; bronze with apricot suffusion.	.75
Bulbs.  Patrick O'Mara. Chrome-yellow. Dahlia Society's Gold Medal, 1921. Good cut flower variety  Pride of California. A brilliant, glowing cardinal-red. The best of its color	1.50 .75
Princess Pat. Giant American Dahlia; a most pleasing shade of old rose; awarded first prize for best seedling at Palace Hotel Show, San Francisco in 1917, and again at the same show in 1919.	
again at the same snow in 1919.  Rookwood (Decorative). A remarkably distinct Dahlia; a pleasing shade of cerise-rose which does not vary during the Summer.	1.00
<ul><li>Royal Gold (Decorative). A free bloomer; flowers of good size of a striking luminous tone of golden amber.</li><li>St. Bernard (Decorative). A huge flower of soft creamy</li></ul>	.75
white, suffused with clear pink; good stem; excellent for exhibition. Plants only	1.50
Trentonian. A giant Decorative old gold, amber and coppery-bronze; fine keeping qualities	2.00
stem; one of the best cut flower varieties	1.00

Trentonian

CACTUS	Each
Edna Spencer (Cactus). Lavender pink, one of the	
best of its color.  E. F. Hawes (Cactus). Clear pink, stiff stem; not large	\$0.75
but a good cut flower	.75
Harpagon (Cactus). Clear yellow, always covered with bloom	1.00
Helen Durnbaugh (Cactus). Pink a real stiff stem	1.00
Cactus; excellent keeper  Kalif. A truly magnificent flower, frequently 9 in. in	.75
diameter. Pure scarlet	.75
Marguerite Bouchon. The best Cactus Dahlia intro-	.10
duced. Absolutely perfect in form. Color brilliant, yet soft rose. Large, white center	7=
<b>Pierrot.</b> Deep amber color, sometimes showing white	.75
tips; a fine exhibition and garden variety	.50
Red Cross. Large, golden yellow, heavily suffused with coral-red	1.00
coral-red Sulphurea. Sulphur-yellow, narrow petals like medium-	2.00
sized Chrysanthemums	.50
HYBRID CACTUS	
Ambassador. Sensational Dahlia since its introduction in 1921, when it won the First Prize at the San Fran-	
cisco Show for the most artistic variety exhibited.	
Its color is a soft yellow at center, with salmon, amber	
and pink shadings, gradually deepening toward the tips and outer floral rays; a strong grower and free	
bloomer from early till late	1.50
Attraction. Large flower of delicate orchid pink, sturdy and upright stem; first-class certificate at	
Haarlem and Amsterdam	.50
George Walters. Salmon color, this Dahlia should be	
in every collection; excellent grower, large size and always producing a quantity of flowers	.75
Jean Chazot or Gay Paree. Perfect flowers of Autumn tints, golden bronze: long, wiry stems. Early and	.10
tints, golden bronzer long, wiry stems. Early and free flowering

## **Gladiolus**

#### Special Low Prices on High Grade Gladiolus Bulbs.

In cutting Gladiolus for the house, it is best to cut the spike as soon as the first one or two lower flowers are open. The remainder will open in water. Remove the faded flowers, cut a little off the stem, and change the water every day; treated in this way a spike will last a week or ten days.

# Danker's Fragrant Peonies

An important point to observe in the planting of Herbaceous Peonies is not to plant too deep. The roots should be placed so that the crowns are covered with 2 inches of soil. Too deep planting is a frequent cause of shy flowering.

# Danker's Select Hardy Perennial Plants

Of all the plants that are cultivated for purely ornamental purposes, there are none which have made such rapid strides in public favor as the old-fashioned Hardy Garden Flowers, the inhabitants of the perennial garden. Their popularity is not at all surprising when we consider the many varied and pleasant changes which take place throughout the entire growing season in a well arranged hardy garden, in which every week—yes, every day—brings forth something fresh and new to interest and delight even the most critical. Beginning in April, the early flowering varieties open their flowers, often before the snow has entirely disappeared, and continue, with constantly changing variety, throughout the Summer, until late in the Fall, when only severe freezing weather will stop such persistent late-blooming kinds as Japanese Anemones, Pompon Chrysanthemums, Gaillardias, Phlox, etc.

Plants are forwarded by express unless instructed to the contrary, purchasers paying charges. Small plants may be forwarded by Parcel Post, and if wanted sent in this way, add 10 per cent to value of order to points east of the Mississippi River and 20 per cent to points west of same.

#### Plants for Special Situations

SPECIAL OFFER.—12 Hardy Perennial Plants, all pot plants, that will bloom the first year, our selection \$2.50

The following indications will be found to be of great assistance to you in planning special sections of your garden.

Š indicates plants suitable for Sun or Half Shade. *P* indicates plants suitable for Partial Shade.

#### **CHRYSANTHEMUMS**

#### EARLY FLOWERING CHRYSANTHEMUMS

These beautiful, large-flowering Chrysanthemums are quite hardy, needing just a little dry leaves or straw to keep the sun from injuring the crowns in Winter. Plant them in a rich, well-drained piece of ground, setting the plants a foot apart and pinching out the tops once or twice during the Summer, but not later than July 15. They will make well branched plants that will furnish quantities of flowers after Asters. Dahlias or Cosmos are cut down by frost. The following varieties have been carefully selected and are best suited to our climate.

To secure good pot plants for blooming inside, plants should be taken up and potted not later than August 15, placing them in a shady place a few days and given plenty of water until they become established.

#### LARGE EARLY FLOWERING CHRYSANTHEMUMS

Citronella. Large yellow, incurved. In flower October 20.

Early Frost. An early white. In flower October 12.

Sun Glow. Large pure yellow. In flower October 15.

Golden Queen. Second early yellow. In flower early October.

Golden Glow. Earliest yellow. In bloom October 1.

Rose Perfection. Large second early incurved pink. In flower October 25.

Tints of Gold. Extra early bronze. In flower October 20.

Unaka. Earliest pink. October 12.

October Rose. Mauve-pink.

Betsy Ross. Large exhibition white.

McNeice. Orchid-pink; midseason.

Sunbeam. Large incurved yellow.

#### 25c. each, \$2.50 per doz., one each of the above, \$2.00.

Our early Chrysanthemums are the very best obtainable and are grown by the thousand at our greenhouses for cut flowers. We can supply about 25 later varieties for planting in conservatories.

Coreopsis lanceolata grandiflora—See page 36.

Delphinium-See page 35.

#### EARLY HARDY GARDEN CHRYSANTHEMUMS

To follow Asters and Dahlias.

#### **POMPONS**

Bronze Doty. Deep terra cotta bronze.

Lillian Doty. Clear light pink flowers.

White Doty. Pure white.

Iva. Dwarf bronze, free flowering

Niza. Light pink, early.

Golden Firebrand. Deep golden yellow; very early.

Golden Climax. Clear yellow, one of the very best.

**Red Doty.** Good red. A duplicate of above.

Pink Dot. A little beauty; white with pink center; very double.

Kitty Riches. New Single pink in full bloom Sept. 20th. Early, dainty light pink.

Buckingham. Large pink.

Buckingham. Bronze.

#### ASTER FLOWERED GARDEN CHRYSANTHEMUMS

Summer Gold. New.

Wolverine. Very early yellow.

Normandie. Best creamy white.

Cranfordia. Exceptionally early, deep bronze-yellow.

Cranford Pink. Beautiful shade of light pink.

Cranford White. Purest white.

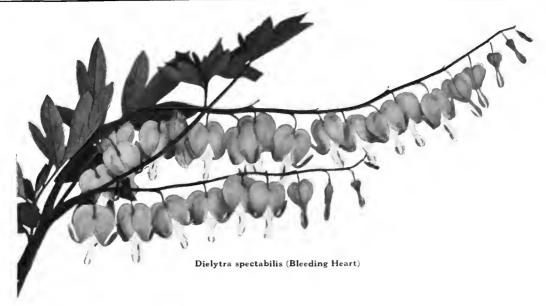

Alice Howell. Early flaming single yellow.

Each 25c., doz. \$2.50.

Eupatorium (Hardy Ageratum)

Digitalis (Foxglove)

# Danker's Superb Hardy Phlox

Probably the most satisfactory of all perennials is the Phlox, and a good space in proportion to the size of the garden should always be given to these plants.

If the early and late varieties are chosen, and the heads of blooms are cut off as soon as the blossoms have faded, the Phlox should blossom from

the middle of June until ice has formed.

The ground where phlox is to be planted should be trenched fully 2 feet in depth, and may be planted in the Autumn, from the 1st to the 15th of October, so that it may become well rooted before Winter; otherwise it should be set out as soon as the frost leaves the ground in the Spring, as growth begins very early.

Whether planted in Spring or Fall, a mulch of old manure thrown

around the roots will be of benefit to the plants.

Phlox should be set out 18 inches apart, and if kept well watered will produce both individual blossoms and heads of bloom far larger than otherwise, and amply repay the extra trouble.

In October, after three seasons of flowering, the Phlox should be lifted, the ground again trenched and enriched, the plants separated into

bunches of three or four stalks each, and then reset.

The best effects to be had with phlox are produced by planting masses of each color, not less than six and even as many as two dozen or more plants of one color together. For example, a border of phlox may begin with palest pink and shading up to dark cherry, then pure white and white with a red eye, and more white, then quantity of red and again white at the end. If in another border the shades of purple are planted with occasional bunches of white, the phlox will be the pride of the garden.

#### DWARF PHLOX

Divaricata laphami, Perrys Variety. An improved variety, with beautiful lavender flowers that are at their best the last of May. Each 35c., doz. \$3.00.

subulata (Moss or Mountain Pink).

lilacina. Light lilac. rosea. Rose-pink.

amoena. Bright pink. Each 25c., doz. \$2.50.

Phlox subulata

Phlox decussata

#### MOST POPULAR VARIETIES

Firebrand (New). The very best red. Each 30c., \$3.00 per doz. Bridesmaid (Tall). White; large crimson-carmine center. Each 20c., doz. \$2.00.

Von Lassburg. Purest white, individual flowers very large. Each 20c., doz. \$2.00.

Elizabeth Campbell. Very bright salmon-pink, with lighter shadings and dark crimson eye; an entirely new and much wanted shade in Phlox. Each 30c., \$3.00 per doz. Europa. White, with crimson-carmine eye; remarkably sturdy. Each

20c., doz. \$2.00.

Beacon. Brilliant cherry-red. Each 25c., \$2.50 per doz. 100 \$15.00.

La Vogue. Pure mauve, with aniline-red eye.

La Vogue. Pure mauve, with antine-red eye.

Miss Lingard. A grand white variety, lilac eye; large, individual flowers; blooms in June and throughout the Summer. Each 20c., doz. \$2.00.

Mrs. Jenkins (Tall). The best tall, early white for massing.

Pantheon (Tall). Bright carmine-rose.

Von Hochberg. Richest crimson-purple.

W. C. Egan. One of the finest phloxes yet introduced—a pleasing shade of soft pink. Individual flowers frequently measure 134 inches in diameter.

Thor. Deep salmon-pink. aniline red eye. Each 35c., doz. \$3.50.

of soft pink. Individual nowers frequency measure 1/4 indices in damages. Ther. Deep salmon-pink, aniline red eye. Each 35c., doz. \$3.50.

Jules Sandeau. Pure pink, dwarf, mammoth flower. Each 25c., doz. \$2.50.

Mia Ruys. A vigorous growing, dwarf variety. Enormous trusses of pure white flowers. Each 35c., doz. \$3.50.

Dr. Koningshoffer. Very brilliant scarlet with blood-red eye. Each 35c.,

doz. \$3.50.

Mrs. Milly Van Hoboken. Long heavy trusses of soft shell-pink flowers of immense size. Each 35c., doz. \$3.50.

Riverton Jewel. A lovely mauve-rose, carmine-red eye. Each 25c..

doz. \$2.50.

Commander-in-chief (Hindenburg). New. Crimson-red with darker eye.

Each 35c., doz. \$3.50.

Homeland (Deutschland). Large trusses of brilliant dark orange-red flowers. Each 35c., doz. \$3.50

Eugene Danzanvilliers. Lilac, shading to white at edges. Each 30c.,

doz. \$3.00.

Enchantress. Large trusses of bright salmon-pink flowers, with dark red eyes. Each 30c., \$3.00 per doz.

Eiffel Tower. Tall, light pink with dark eye; one of the very best. Each 50c.

Each 25c., doz. \$2.50, 100 \$15.00, except where noted.

# Danker's High-Grade Lawn Grass Seed

For Lawns, Grass Plots, Tennis Courts, Golf Grounds, Etc.

Weighs 22 pounds per bushel

This HIGH-GRADE LAWN GRASS SEED is composed of the very finest recleaned grasses, free from weeds and all foreign matter. Where a strictly first quality grass seed is wanted, I can recommend this grade of seed, it requiring only three to four bushels to the acre for new lawns, and one to two bushels for renovating old lawns.

By sowing HIGH-GRADE LAWN GRASS SEED you will obtain a beautiful, deep green lawn, which, owing to the varieties used in this mixture, will retain its velvety appearance during the entire Summer.

One quart of our HIGH-GRADE LAWN GRASS SEED is sufficient to sow about 300 square feet; an acre will require from three to four bushels. To produce a good lawn, it is always best to sow the seed thickly.

Price: Qt. 35c., 4 qts. \$1.25, 8 qts. \$2.25, bus. \$7.50.

DANKER'S SHADY PLACE GRASS. Special mixture for using on that part of the lawn that is shaded by trees, buildings, etc. Circular, "How to Make a Lawn," mailed upon request. Price: Qt. 40c., bus. \$8.00.

DANKER'S SPECIAL MIXTURE. Lb. 50c. WHITE CLOVER SEED. Lb. 85c.

#### VEGETABLE PLANTS

CAULIFLOWER PLANTS, Snowball. From hotbed, 50c. per doz., \$4.00 per 100.

CABBAGE PLANTS, Early. 25c. per doz., \$1.75 per 100.

CABBAGE PLANTS, Late. 25c. per doz., \$1.75 per 100.

EGG PLANTS. Ready in May and June. Best variety. Pot plants, 50c. per doz., \$4.00 per 100.

RHUBARB ROOTS. Best early, 15c. each, \$1.50 per doz. PEPPERS, Sweet. Pot-grown, 50c. per doz., \$4.00 per 100.

#### BEST TOMATO PLANTS

BONNY BEST. An early and productive variety, uniform in size and shape; the color is scarlet, produced in abundance. Pot plants, 60c. per doz. BURBANK. Considered the very earliest red variety. 60c. per doz.

NEW STONE. Fruit very large and deep; bright scarlet. Best for all

purposes. 60c. per doz.

#### NOTHING TO **EQUAL IT**

Vigoro gives plants a quick growth and good color. Clean, odorless, easy to apply; it is not to be compared with any other plant food you have ever known.

A Swift & Company prod-

5 lbs. 60c., 10 lbs. \$1.00 25 lbs. \$2.00, 50 lbs. \$3.50, 100 lbs. \$6.00.

### Cannas

No other bedding plant will give the same uniformly good results in our varied and trying climate. They do well in all sections of the country, and stand pre-eminently at the head of the list, succeeding in any sunny position in any kind of soil, but responding quickly to liberal treatment. For best results the beds should be spaded 2 feet deep and a liberal amount of well decayed manure of any kind thoroughly incorporated, and at all times supplying water freely.

#### FREE FLOWERING CANNAS

The President. An improvement on Fire Bird. Immense florets of bright red color enhanced by extraordinary vigor and perfect healthy foliage. It grows to a height of 5 feet and produces its immense trusses of florets in great profusion. The most sensational introduction of recent years. Each 25c., doz. \$2.50.

Meteor. Massive, erect trusses of deep blood-red flowers

produced with a freedom to leave nothing to be desired in effectiveness. Meteor is the best deep red Canna.

5 ft. Each 25c., doz. \$2.50. Mrs. Alfred Conard. One of the very best Cannas in commerce today. The large, exquisitely shaded salmonpink flowers are produced in great abundance on robust, upright stalks. 4 ft. Each 35c., doz. \$3.50.

Eureka. The best white Canna for all purposes. The large, substantial flowers are produced on strong, vigorous plants.

Each 25c., doz. \$2.50.

Yellow King Humbert (Queen Helen). Identical with King Humbert in habit of growth, but has yellow flowers and green foliage. 5 ft. Each 25c., doz. \$2.50.

Hungaria. The ideal pink bedding Canna; flowers large, in good-sized trusses, produced early, freely and continuously; color not unlike that of the Paul Neyron Rose. Compared with all other pink varieties, it possesses a softness and refinement not found in any other sort. 3 to 3½ ft. Each 25c., doz. \$2.50, 100 \$18.00.

Yellow King Humbert (Queen Helen)

King Humbert

Favorite. This is the best yellow Canna spotted with red and received highest award of Society American Florists, 1917. 4½ ft. Each 25c., doz. \$2.50.

#### SELECT STANDARD VARIETIES

King Humbert. In this grand Canna we have a combination of the highest type of flowers with the finest bronze foliage. Its flowers measure 6 inches in diameter, produced in gigantic trusses; a brilliant orange-scarlet, with bright red markings; foliage broad and massive, of a rich coppery-bronze. 5 ft. Each 25c., doz. \$2.50, 100 \$18.00.

Robusta. Bronze foliage; tall and robust grower. When planted in beds with other Cannas this should occupy the center. 6 to 7 ft. Always use Robusta for the center of

Canna beds. Each 25c., doz. \$2.50.

Musaefolia (Banana-leaf Canna). Large, massive leaves, 8 feet tall, suitable for the center of large Canna beds.

Each 25c., doz. \$2.50.

For best effect plant in large masses of one color.

For an effective combination bed, starting from center: No. 1, Robusta or Musaefolia; No. 2, King Humbert; No. 3, Meteor. Edge with Salvia, Coleus or Dusty Miller.

AMARYLLIS (Giant American Hybrids). Large trumpetshaped flowers ranging from pink to scarlet and dark crimson; can be grown in a cool window or living room. After flowering the plants can be put in the ground pot and all andremoved inside before frost. Large bulbs, 65c. and \$1.00.

Diener's California Hybrid. An evergreen Amaryllis and a much improved variety. Each \$2.00 and \$3.00.

EUCHARIS grandiflora or Amazon Lily. A lovely bulbous plant from Colombia; flowers pure white, cupped somewhat, resembling the Sir Watkins type of racemes in clusters, from 2 to 6 on stem; 1 to  $1\frac{1}{2}$  ft. Each 75c., doz. \$8.00.

ISMENE calathina or (Peruvian Daffodil). Flower pure white, resembling small Amaryllis plant in the open ground in Summer; dig and store in Winter same as Gladiolus, Dahlias and Cannas. Each 25c., doz. \$2.50.

Lilium regale

# Lilium (Lily) FOR GARDEN AND POT CULTURE

The Lilies are among the most beautiful and ornamental of cultivated bulbous plants (which are in many cases highly perfumed) rendering them indispensable subjects for outside garden planting and conservatory decoration.

All the varieties we offer are hardy in this climate.

The commoner and more plentiful species may be effectively employed for grouping or naturalizing.

Many of the Lilies are excellent border plants when in flower and the stronger growing varieties are well adapted for planting among shrubs where the latter are not too thickly placed.

Lily bulbs should always be planted 6 to 8 inches deep in well drained ground in clumps of three to six; it is well to put a handful of sharp sand beneath each bulb.

Lilium auratum (Gold Banded Lily of Japan). Undoubtedly one of the finest. 3 to 5 ft. Blooms July to September. Very fragrant. 50c. each, \$5.00 per doz.

Lilium candidum (Madonna, or St. Joseph Lily). A most desirable whiteflowered Lily for outdoor culture. Perfectly hardy, and continues to bloom from year to year. 50c. each, 85.00 per doz. (Dry bulbs, September and October delivery, 25c. each, 82.50 per doz.)

Lilium longiflorum (White Trumpet or Easter Lily). 35c. each, \$4.00 per doz.

Lilium regale or Royal Lily (New). Chinese variety; exquisite blending of tints and color, white faintly tinged with yellow at base, shaded pink outside; very hardy, requiring good soil and increases in beauty as bulbs become established. 3 year bulbs 50c. each \$5.00 per doz. 5 year bulbs \$1.00 each \$10.00 per doz.

Lilium speciosum magnificum (Japanese or Orchid Lily). White ground, pink spotted petals, well rolled back. Flowers in August and September. 50c. each, \$5.00 per doz.

Lilium speciosum album Kratzeri. A white form of the above with delicate fragrance, with golden green stripe through center of petals. 50c. each, \$5.00 per doz.

Lilium tigrinum splendens. Old-fashioned Tiger Lily, orange with black spots; blooms freely outdoors. 25c. each, \$2.50 per doz.

Lilium tigrinum splendens flore pleno. Double Tiger Lily. 35c. each, \$3.50 per doz.

**Lilium superbum.** Color varies from pale yellow to deep crimson; does well in ordinary garden soil if given good drainage. 35c. each, \$3.50 per doz

Lilium henryi. Rich orange-yellow, vigorous in growth; one of the best border Lilies.

Lilium croceum. Bright orange-yellow, spotted purplish-black in center; sometimes tinged red; anthers red. 50c. each, \$5.00 per doz. Dry bulbs in September and October. 25c. each, \$2.50 per doz.

Lilium auratum

# Nursery Department

Our nurseries at 774 Central Avenue are worth visiting for anyone who is interested in beautifying the home and surroundings.

Our stock will stand your climate.

Our stock has been transplanted in time, thus safer for you to plant.

16-in. diameter.25.00 18-in. diameter. 30.00

Our stock has been trimmed and cared for, thus is sure to please you.

Our stock had all the cultivation wanted, thus is clean and thrifty.

Our stock is the best standard obtainable in this country.

Let us make a plan and work that plan with Danker's trees, evergreens, shrubs and perennials to make your house a home all the year round.

We have all the stock on hand for extensive as well as for smaller plantings. Visit our nurseries and see the facts. Our advice, estimate, sketch and personal information gratis.

#### Our Palm Sunday Exhibit-April 1, 1928

is an annual event and enjoyed by thousands. No sales or orders taken on that day. All are welcome!

# Flower Seeds

We have had many requests for flower seeds of the varieties we sow for our own cut flowers and are pleased to offer the ollowing, all of which can be safely sown out of doors in May with good results.

# Help Nature beautify your home by using VIGORO on all the plants you grow

#### Beautifying the Home

THOSE things we so admire in the home beautiful may be grown by all—the velvety lawn, beautiful flowers, luxuriant shrubbery and stately trees. Proper care is necessary, but without a liberal supply of the right kind of plant food, all of your work may be in vain.

# How Much VIGORO to Use

We recommend that **Vigoro** be applied at the rate of one to four pounds per 100 square feet of surface. For early Spring application, two to four pounds should be applied. For Summer and Fall applications, one to two pounds is sufficent.

#### **PRICES**

5	lbs.								\$0.60
10	lbs.								1.00
25	lbs								2.00
50	lbs.								3.50
100	lbs								6.00

The following table has been prepared to help the user determine the amount of **Vigoro** necessary for a given amount of ground.

	<u>. 3</u> C
The same of the sa	
American Services	
100 (100)	
	0/1
Amount necessary	

of	Rate of Application per 100 square feet	Amount necessary for one Application
25 x 50 ft.	2 lbs. (about 1 qt. )	25 lbs.
	4 lbs. (about 2 qts.)	
	2 lbs. (about 1 qt. )	
	4 lbs. (about 2 qts.)	

To figure your requirements, multiply the width of your grounds by the depth, deducting the space occupied by buildings, walks, etc., and then divide by 100. The result should be multiplied by one, two, three, or four pounds, depending upon the amount of **Vigoro** you desire to use.

#### RED WING POWDER

#### ALL PRICES SUBJECT TO CHANGE WITHOUT NOTICE.

We herewith offer the best Fertilizers, Insecticides and Fungicides and would suggest that our patrons order their supply early, particularly fertilizers, as the supply is limited in all parts of the U.S. We have a large stock now and can deliver at once.

#### "FEED THE SOIL FOR BEST RESULTS"

#### Fertilis Tablets

A complete concentrated fertilizer. They contain the proper amounts of nitrogen in the form of ammonia, phosphoric acid and potash. There is no "filler" in Fertilis Tablets. 25c. per box.

#### For Palms, Ferns and Other House Plants.

#### Red Wing Insect Powder

We recommend this powder for ants, rose bugs, etc.,  $25c.\ pkg.$

#### Air-Slaked Lime

Excellent for sweetening the soil and killing earth worms. 50 lbs. \$1.50, 100 lbs. \$2.00.

#### Hardwood Ashes

Indispensable as a lawn dressing, or to apply to orchards. Should be applied late in Fall or early Spring at the rate of 1000 to 1500 lbs. per acre. 5 lbs. 25c., 10 lbs. 40c., 25 lbs. 80c., 100 lbs. \$2.50.

#### Canadian Hardwood Ashes

5 lbs.	\$0.40	25 lbs.	\$1.25
10 lbs.		100 lbs.	4.00

#### Holland Peat

Suitable for mulching rose beds, Rhododendrons, evergreens, Azaleas, etc. Large bales, \$4.00 each.

Bales of one bushel, \$1.50

# **GARDEN**

A LITTLE BOOK OF ANNUALS. By Prof. Alfed C. Hottes. A reliable guide through the season of annual bloom. Over 100 separate species are described, with full directions for their culture and uses. Paper cover, \$1.10; cloth cover, \$1.65.

A LITTLE BOOK OF PERENNIALS. By Prof. Alfred C, Hottes. Devoted to the general principles of growing, using, selecting and propagating perennials, followed by a number of comprehensive lists of perennials suited for different locations and purposes. 200 pages, well illustrated. Paper cover, \$1.10; cloth cover, \$1.65.

BULBS THAT BLOOM IN THE SPRING. By T. A. Weston. Written for the amateur, this book affords all the information the home gardener requires not only as regards the culture and flowering of newly purchased bulbs, but also in the harvesting and ripen-

ing of such bulbs as are planted in the Fall for Spring display. 52 full page halftones, 8 full color plates. Paper cover, \$1.65; cloth cover, \$2.15.

MODERN DAHLIA CULTURE. By W. II. Waite. This volume is the biggest book value there is for Dahlia lovers, present and to come. Brief, clear, complete; based on the actual operations and results of a practical, experienced grower propagator and exhibitor. Cloth bound, \$1.65.

grower, propagator and exhibitor. Cloth bound, \$1.65. **THE HOME FRUIT GROWER.** By M. G. Kains. For the amateur who seeks to grow high quality fruits. Each fruit suitable to the home garden discussed. 212 pages; 110 halftones, with numerous sketches and tables. Paper cover, \$1.10; cloth cover, \$1.65.

PRACTICAL PLANT PROPAGATION. By Prof. Alfred C. Hottes. All amateurs have an intense desire to propagate those plants which they admire. In this book is told in simple terms how to graft fruit trees, make cuttings and layers, and sow the seeds which are often difficult to germinate. Cloth bound, \$2.15.

1001 GARDEN QUESTIONS ANSWERED. By Prof.

Alfred C. Hottes. Do you know:—Why Peonies do not bloom? Why evergreens fail? Why house plants are leggy? Why cut flowers do not keep? Why young fruit

trees do not bear? This information and a wealth of other garden facts which hundreds of men have spent their lives in obtaining will be found in this book. 320 pages, copiously illustrated. A four-color plate adorns the cover. Paper bound, \$1.65; cloth bound, \$2.15.

The books described on this page will not disappoint any reader who seeks practical, worth while advice on gardening. Attractive covers, clear type, high-class teaching illustrations and the best of presswork and binding mark these books

# BOOKS

GARDEN GUIDE. A complete handbook for the amateur gardener. Over 60,000 copies sold throughout the United States and Canada. Contains wonderful chapters devoted to the vegetable, flower and fruit gardens, with practical layouts and planting plans. Covers every step from spading the ground to preserving the harvest. 384 pages and over 275 teaching illustrations, with beautiful cover in four colors. Paper cover, \$1,10; cloth bound, \$1,65.

MILADY'S HOUSE PLANTS. By F. E. Palmer. Tells how to care for Palms, Ferns, Rubber Plants, Fuchsias, Jerusalem Cherries, and scores of other popular house plants, together with advice about the best plants to grow indoors. Profusely illustrated with 100 instructive pictures. Paper bound, \$1.10; cloth bound, \$1.35.

THE WOMAN'S FLOWER GAR-DEN. By Jane Leslie Kift. As its

name implies, a book for women on the care of flowers and plants in the home and on their cultivation in the garden. 160 pages. Pleasing rose-colored cover. \$1.10.

THE PRINCIPLES OF FLOWER ARRANGEMENT. By Prof. Edw. A. White. Deals with the principles which underlie the art of flower arrangment' with reference to form, color harmony, etc., making clear what a balanced composition really is. 225 pages, 6 full page color illustrations. \$3.15.

FOUNDATION PLANTING. By Leonard II. Johnson. Covers the art and science of beautifying, by means of plants, the immediate frontage of the house and, when opportunity serves, its sides and rear as well. 236 pages, 208 halftones and planting plans. \$3.65.

**WATER GARDENING.** By Peter Bisset. Gives in full detail all the practical information necessary to the selection, grouping and successful cultivation of aquatic and other plants. 125 halftones, 17 diagrams and 2 double-page plates. Cloth cover. \$5.00.

PRACTICAL LANDSCAPE GARDENING. By Robt. B.

Cridland. Takes up all the elements that enter into the beautifying of properties. 91 photographic illustrations, 67 sketches and 33 plans. Over 10,000 copies sold. Cloth cover, \$2.65.

40-42 Maiden Lane, ALBANY, N. Y.

#### TERMS

NEW ACCOUNTS.—Cash with order or satisfactory references. All bills due 60 days from date of invoice.

C. O. D. ORDERS must be accompanied with a deposit.

DAMAGED PLANTS,—Should a shipment reach you by express damaged, sign for it: "Received in damaged condition," and be sure to notify your express agent at once to inspect the plants. Then notify me immediately and I will assist in every way possible that the shipment may not be a total loss. Do not return plants to me without first communicating with the express company.

CLAIMS.—All claims must be made on receipt of goods, or they will not be entertained.

NO WARRANTY.-While I exercise the greatest care to have all bulbs, plants and nursery stock true to name, I do not give any warranty, express or implied, and will not be in any way responsible for the crop. If the purchaser does not accept the goods on these terms and conditions, they must be returned at once, and the money that has been paid for same will be refunded.

PRICES.—All prices and terms are subject to change without notice. This is made necessary by unsettled business conditions that affect the cost of materials that we are obliged to buy for operating our business, and also by

fluctuations in the prevailing wage rate.

EARLY ORDERS.—To one familiar with the rush at the packing season, it must be obvious that it is impossible to fill an order requiring much time in its preparation on short notice, without doing an injustice to others who have their orders previously booked. In fairness to all, I have adopted the practice of filling orders in the rotation received, unless orders are received far enough ahead of the packing season, with instructions to ship at a given date, so that I can arrange a special shipping date. So I again say-place your orders as far in advance as

you possibly can, stating when you would like stock sent.

PLANTS BY EXPRESS.—We do not deliver plants free by express, the purchaser paying the charges, which are by the principal express companies, 20 per cent. less than regular merchandise rates. We strongly urge this method of transportation, as it enables us not only to give better values in the form of larger and finer

plants, and unless instructed to the contrary, all orders are forwarded by express.

plants, and unless instructed to the contrary, all orders are forwarded by express.

PLANTS BY RAIL.—Shrubs, Hedge Plants and other dormant stock can be forwarded safely by fast freight lines, even to very distant points, at low rates.

PACKING FREE. All retail orders.—We make absolutely no charge for boxes or packing or delivery to any express, freight or steamship line in Albany, N. Y. Wholesale orders to the trade, charges for boxes and packing material at cost.

SAFE ARRIVAL GUARANTEED.—We guarantee the safe arrival of all plants in any part of the U. S. or Canada when sent by express. If forwarded in any other manner they are entirely at the risk of the purchaser.

We would like to impress upon our customers and intending customers that it is to our interest as well as theirs that only strong, healthy stock be furnished. We believe that our satisfied customers will be our best advertisements.

Our nursery and greenhouses are always open for inspection.

State of New York, as duly examined in compliance with the processions of Section 305 of the light in the stock in the nursery of injectious disease or disease, or the San Jose scale or other dangerously be our best advertisements.

Our nursery and greenhouses are always open for inspection.

Our nursery and greenhouses are always open for inspection.

While we exercise the greatest care to have all trees, shrubs and plants sold by us true **GUARANTEE** to name and free from disease, and hold ourselves prepared to replace, on proper proof, all that may prove to be otherwise, we do not give any warranty, express or implied, with respect to them. Any and all such goods are sold upon the express condition and understanding that in case any of them prove to be untrue to name, unhealthy or otherwise defective, we shall not be held responsible for a greater amount than the original price of the goods.

REPLACING

We cannot replace trees which ian to live of make a deduction on plants to mers. The success of a tree depends upon its management, after it leaves our hands, tomers. The success of a tree depends upon its management, after it leaves our hands, tomers. We cannot replace trees which fail to live or make a deduction on plants lost by cusand over its planting and after treatment we can have no possible control. A tree may be killed by too much or too little water, by drought, by being planted too deep or not deep enough, or by having its naked roots exposed to the wind for an hour; evergreens are especially endangered by this last treatment. One should also bear in mind that a tree planted in the Spring may show no life until Autumn, or even fail to come out in full leaf until the succeeding Spring. We have often had trees reported as lost when a little patience on the part of the owner proved that the trees were really alive.

SPECIAL INSURANCE

A great many people want the nurseryman to stand all losses, whether due to climatic conditions, planting, or after care. For sufficient support of the standard proposition. Upon payment on day of delivery, or before that date, of full purchase price, plus twenty-five per cent of same, we will insure the growth of such stock as we deliver except from injury sustained by fire, cattle, hogs, accidental, willful or malicious destruction and floods, until the first day of September after delivery. Purchaser is to notify us promptly on or before the first day of September as to losses claimed, so we can investigate and issue proper credits. No claims will be honored unless plants are left undisturbed in the ground until we have had an opportunity to investigate, in case we should desire to do so.

## Suggestions for Planting Evergreens, Trees or Shrubs

PREPARING THE HOLES

Dig the holes not less than one foot wider than the root area of the tree it is to hold, and from a foot to two feet in depth, according to the root system. If the soil is poor, some sods, well rotted manure, old compost or leafmold should be added and worked in thoroughly. If the soil at the bottom of the hole is a stiff, hard clay, shale, or a gravelly hardpan, it should be picked and broken up to the depth of a foot or more and Alphano Humus or good soil mixed with it.

#### SETTING THE TREE

Before setting the tree, go over the root system carefully and with a sharp knife or pruning shears cut off all the broken and bruised portions of the roots. This does not apply to specimen evergreens delivered with ball of earth, which should not be disturbed. The soil mark on the bark of the tree will show the depth at which it stood in the nursery; take good care when placing your tree in the hole that it comes at the same depth. Do not plant too deep. Spread the roots out naturally so that they may not be twisted or crowded, then fill in gradually with fine soil, working it in between the roots, so that no unfilled places may be left. Fill the soil in, layer by layer, and shake the tree while doing so, to assist the soil to work in between the roots. Tamp the soil down carefully but firmly after each layer has been filled in. Continue this process until the hole is filled to within about two inches of the top, then the remainder of the soil should be shoveled in, leveled up and brought to the surface without tamping. Do not hill the dirt up around the tree. In dry weather a liberal allowance of water may be used before filling in the last soil and

allowed to soak away gradually, after which the filling may be done as described above.

#### MULCHING

The importance of mulching, especially in dry seasons, should not be overlooked, its object being to hold moisture about the roots and thus aid in the successful growth of the tree. Spread some coarse manure or compost over the surface around the tree, extending a little beyond the line of the hole. It is always advisable to mulch your evergreens in the Fall, especially those newly planted.
